17 YEARS
OF EXCELLENCE
in Non-Invasive Wellness Solutions

FOUNDER / CHAIRMAN
SHRI KRISHNAMOORTHY V

Established in the year 2009

Theosis was established in **2009** by **Krishnamoorthy. V**, a visionary leader who transitioned from a successful career in the pharmaceutical sector to pursue a more meaningful mission: enabling people to experience wellness through non-invasive solutions.

Inspired by a life-changing recovery within his own Mother, the founder introduced a unique approach, allowing individuals to experience the products before making a decision.

What began as a single center at Tower Junction, Nagercoil, has grown over 17 years into a trusted network of 14 branches across Tamil Nadu and Kerala, with hundreds of people experiencing the products every day in each show room.

Built on the philosophy, "Give a lot, and you shall receive a lot," Theosis continues to combine traditional wellness principles with modern technology to support comfort, mobility and everyday well-being.

OUR WELLNESS SOLUTIONS

At THEOSIS, we are committed to delivering wellness solutions like Chiropractic Therapy, Acupressure, Thermal Therapy, Far Infrared (FIR) Therapy, Moxibustion Therapy, Low Frequency Therapy, Ion Therapy that meet modern wellness standards while ensuring comfort, safety, and customer trust.

N5 THERMAL WELLNESS BED

The N5 model is a premium, foldable and automatic thermal wellness system featuring patented Tourmanium ceramic technology. Designed for deep relaxation and spinal care, it combines far-infrared heat, acupressure and massage to target the body's core systems. Its innovative triple-projector system allows for simultaneous spinal stimulation in a compact, space-saving design.

Key Features & Health Benefits

Tourmanium Ceramic Technology:

Utilizing a proprietary blend of tourmaline, germanium and volcanic rocks, the N5 emits far-infrared rays to boost circulation and provide soothing, deep-tissue heat therapy.

Precision Spinal Care:

Internal projectors follow the natural contour of your spine, providing chiropractic-inspired correction, acupressure and moxibustion to relieve muscle tension and promote spinal health.

Advanced Triple Projectors:

Specialized heating elements cover the cervical, thoracic and lumbar regions simultaneously for a comprehensive full-body experience.

Ergonomic Foldable Design:

The modern "n-shape" design allows the bed to be folded easily, making it perfect for home use without sacrificing living space.

Multi-Functional Smart Remote

The user-oriented remote gives you complete control over your wellness session:

Clear Visual Display:

Large display for easy status checks.

Easy-Touch Controls:

Specially shaped buttons that you can feel and operate with your thumb, so you don't have to lift your head or look down during your massage.

Entertainment Hub:

Built-in music player with speakers and earphone (MP3 files can be saved on a Micro SD card).

Personalized Comfort:

Adjustable remote rack allows you to position the controller at the perfect angle for easy access.

N4 THERMAL WELLNESS BED

The N4 model is an advanced, ergonomic thermal wellness system designed for targeted spinal care. Featuring a unique dual-projector system and adjustable length, it provides a personalized massage experience that combines the restorative properties of Tourmanium ceramic with far-infrared heat and acupressure to support your body's natural vitality.

Key Features & Health Benefits

Dual Internal Heating Projectors:

Uses two internal projectors that move simultaneously to stimulate the cervical, thoracic and lumbar regions of the spine for maximum thermal effect.

Specialized Spinal Targeting:

It features dedicated projectors: one exclusively for cervical tension and another specifically for the thoracic and lumbar discs to stimulate natural spinal curves.

Adjustable Length & Foldable Design:

The N4 is built for practical use with a foldable auxiliary heating unit that can be adjusted in length to fit different body sizes comfortably.

Integrated Tourmanium Heat:

The lower section features a Tourmanium heating unit, specifically designed to provide deep-tissue warmth to the legs and calves.

Included Accessories

Multifunctional Controller: Features a rotatable rack that can be adjusted to your preferred angle for easy operation during your session.

Low-Frequency Pad: An elastic abdominal pad that can also be used on the back, thighs, or feet to provide targeted stimulation.

5-Ball External Projector: A portable heating unit that allows you to apply concentrated Tourmanium heat to hard-to-reach areas of the body.

Primary Areas of Support

Cervical (Neck) Relief: Targeted heating to release deep neck tension.

Full Spinal Stimulation: Simultaneous massage for the upper and lower back.

Lower Body Vitality: Dedicated leg heating for improved circulation.

Key Differences to Note (N4 vs. N5):

N4 features an adjustable length to comfortably accommodate different family members. Its dual-projector system provides targeted relief for the neck and back, making it a reliable and space-efficient wellness solution.

N5 features an advanced Triple-Projector System that stimulates the cervical, thoracic, and lumbar regions simultaneously. Combined with a built-in Premium Sound System, the N5 offers a more immersive, synchronized and powerful full-body therapy session.

TRANQUIL 4D MASSAGE CHAIR

The Tranquil 4D is the pinnacle of home wellness, engineered to deliver a professional-grade spa experience. Combining advanced Air Suspension 4D Manipulators with intelligent body scanning, this chair offers a deeply personalized journey into relaxation and active restoration.

Core Technology: The 4D Advantage

Deep-Tissue Precision:

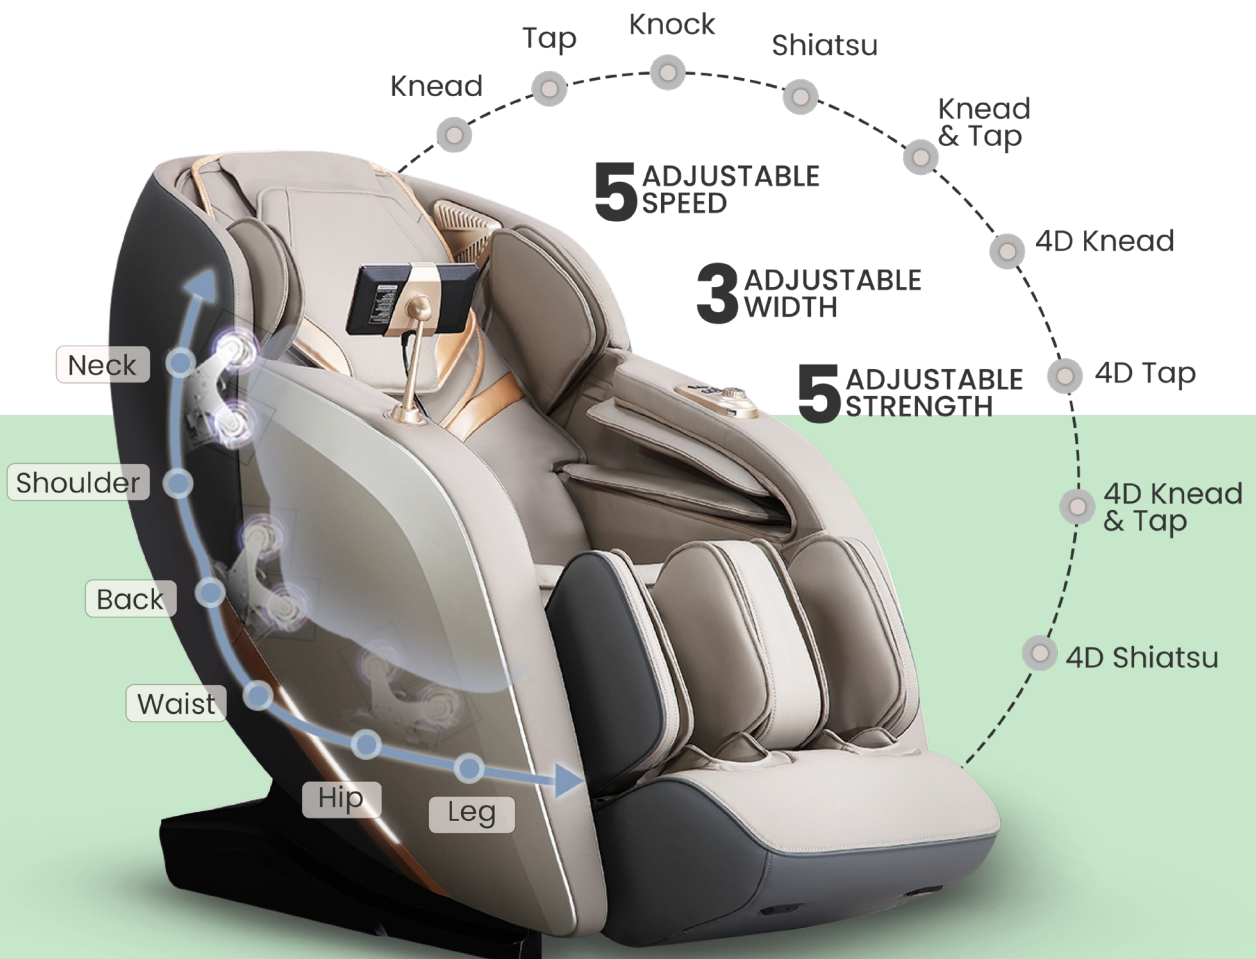

The 4D intelligent mechanical arms mimic the hands of a professional therapist, featuring a 12cm deep-reach massage and a 10.5cm forward stretch to penetrate deep into the fascia layer.

9 Professional Techniques:

Utilizing a massive SL-Extra Long Guide Rail, the chair masters 9 techniques, including Kneading, Tapping, Knocking and Shiatsu.

Fully Customizable:

Tailor your experience with 5 Adjustable Speeds, 5 Intensity Levels and 3 Width Settings to suit every family member's unique needs.

Intelligent Features & Seamless Control

AI Voice Control:

Operate your session completely hands-free with 17 intelligent voice commands. Simply say, "Hi Alice, Relax massage" to begin.

Triple Control Hub:

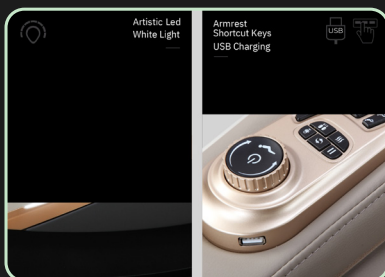

Seamlessly navigate your wellness via the 7-inch Touch Screen, the ergonomic Armrest Shortcut Keys or the AI Voice system.

Auto Body Detection:

Upon reclining, the chair automatically scans your body curve and shoulder position to ensure every massage point is accurate and "humanized."

Integrated Entertainment:

Immerse yourself in the 3D Digital Surround Sound system for a perfect "Sleep Music" atmosphere while your devices charge via the built-in USB Port.

Full-Body

Thermal & Compression Therapy

Graphene Heat Therapy:

Experience rapid, constant-temperature heating in the Back and Leg areas to soothe sore muscles and boost circulation.

Soft Pressure Airbags:

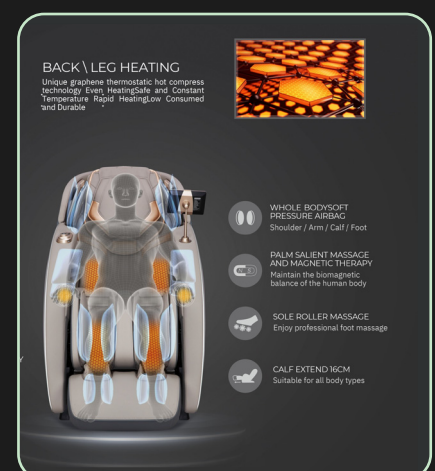

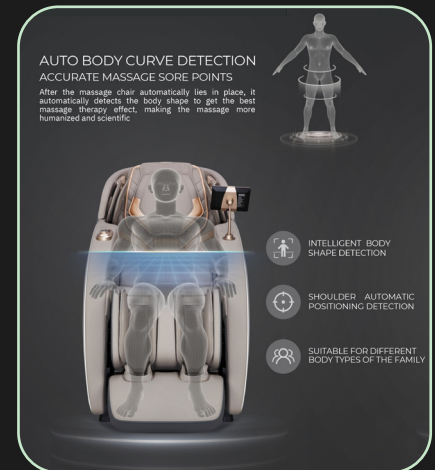

A comprehensive airbag system provides gentle yet firm compression to the Shoulders, Arms, Calves and Feet.

Magnetic Palm Therapy:

Specialized "Palm Salient" massage units work to maintain the body's natural biomagnetic balance.

Professional Foot Care:

Deep-tissue Sole Rollers combined with a 16cm extendable calf unit ensure a perfect fit and relief for tired legs.

Our Wellness Solutions

LEG MASSAGER MODEL TF-1

The **TF-1** model is an advanced, multi-functional foot therapy system designed to bring professional-grade reflexology into the comfort of your home. Based on traditional meridian theory and modern magnetic therapy, this “Intelligent Foot Spa” provides a deep-tissue experience that revitalizes tired limbs and supports overall body vitality.

Key Features & Health Benefits

8 Intelligent Massage Modes:

Features a versatile range of pre-set programs (P1–P8) that combine splint massage and high-performance foot rollers t ward and backward rotation, ensuring comprehensive stimulation of the muscles and tendons in the feet and calves.

Integrated Heat Therapy:

Delivers constant, soothing warmth to the soles, helping to dilate blood vessels, improve circulation and enhance the effectiveness of the massage.

Whisper-Quiet Technology:

Engineered for “Body and Mind Comfort,” the motor operates silently, making it the perfect companion for quiet relaxation or multitasking.

Precision Timer Control:

Tailor your session with a built-in timer (10, 20 or 30 minutes) and adjustable speed intensities for a personalized wellness journey.

Primary Areas of Support

Plantar Reflexology (Soles & Heels):

Targets key reflex points that correspond to internal organs (Heart, Liver, Kidneys), promoting holistic balance.

Arch & Heel Relief:

Deep-kneading action specifically addresses plantar tension and heel stiffness.

Ankle & Achilles Recovery:

Side-compression “splints” grip the ankles to reduce swelling and improve range of motion.

Lower Calf Vitality:

When positioned deeper, the rollers provide kneading to the lower calves to flush out lactic acid and relieve fatigue.

Our Wellness Solutions

FOOT, CALF & THIGHS LEG MASSAGER MODEL TL-1

A multi-functional wellness system designed to deliver a deep and soothing massage experience for tired legs and feet. Combining air compression, roller massage and thermal warmth, the device helps promote relaxation, ease muscle fatigue and refresh the lower body after long hours of standing, walking or physical activity.

Key Features & Health Benefits

Air Compression Massage:

Gentle compression surrounds the feet, calves and thighs to create a comfortable massage experience while supporting relaxation and circulation.

Roller Massage System:

Deep-kneading rollers target the sole area to help reduce muscle stiffness and provide a soothing foot massage experience.

Integrated Heat Function:

The built-in heat system delivers consistent warmth that enhances comfort and supports a calming wellness session.

Full Leg Coverage:

Designed to massage the feet, calves and thighs together for a more complete lower-body relaxation experience.

Multiple Massage Modes:

Includes adjustable massage programs and intensity settings for personalized comfort and everyday use.

Tired Leg Relief:

Designed to help ease leg pain and reduce muscle fatigue caused by long hours of standing, walking or physical activity.

Improved Circulation Support:

Air compression and massage functions help encourage better blood flow for a refreshing lower-body experience.

Muscle Relaxation:

Deep-kneading rollers help ease stiffness and provide soothing comfort for the feet and calves.

Everyday Comfort & Relaxation:

Combines massage and warmth to create a calming wellness experience suitable for regular daily use.

Primary Areas of Support

Foot & Sole Relaxation:

Targets the sole and heel area to provide soothing comfort after long standing hours.

Calf Comfort:

Air compression and massage functions help support tired calf muscles and everyday relaxation.

Thigh Support:

Extended coverage helps create a more complete lower-body massage experience.

Everyday Recovery Sessions: Suitable for regular wellness routines, relaxation sessions and post-work comfort.

Our Wellness Solutions

LEG MASSAGER MODEL TL-2

The **TL-2** model represents the next generation of home wellness technology. Engineered with a “4D Full Package” compression system, this model offers a comprehensive therapeutic experience that extends from the tips of your toes to the upper calves.

Key Features & Health Benefits

4D Full-Package Compression:

An advanced system of multi-layered airbags that wrap entirely around the feet and calves, providing rhythmic, hand-like pressure to improve lymphatic drainage.

Six Artificial Human Techniques:

Mimics a professional therapist with specialized motions, including Refreshing Toe Rolls, Foot Pinch Stimulation, and Instep Airbag Pressing.

9-Step Precision Heat Therapy:

A highly customizable thermal system with nine temperature levels, allowing you to find the exact degree of warmth to soothe stiff joints and boost circulation.

Acupoint & Heel Kneading:

Dedicated mechanical nodes target the three stages of the foot (front, middle, and back), with specialized focus on high-tension areas like the heels and arches.

Hygienic Zipper Design:

Features removable and washable cloth covers, ensuring a clean and fresh experience for every family member.

Primary Areas of Support

Full Foot & Instep:

The top-mounted airbags and rollers work together to relieve pressure from the instep and toes.

Ankle & Achilles Support:

Specialized “Squeeze Airbags” securely grip the ankles to stabilize the joint and reduce localized swelling.

Comprehensive Calf Therapy:

The taller ergonomic design allows for deep “Convex Acupoint” massage

on the calves, effectively flushing out lactic acid after long periods of standing or exercise.

Plantar Fascia Relief:

Deep-reaching “Three-Stage Massage” (front, middle and back of the sole) rollers target the entire sole to alleviate chronic foot pain and fatigue.

Our Wellness Solutions

E5 COMBINATION STIMULATOR

The **E5 is a premium combinational stimulator** designed for advanced home wellness. Combining thermal therapy with advanced low-frequency technology, the E5 s pecifically targets the feet and body to relieve muscular pain and restore physical vitality.

Key Features & Health Benefits

Thermal Foot Therapy:

A specialized heating unit stimulates the bottom of your feet, providing deep thermal relief to tired soles and improving full-body energy flow.

Patented NDT Ceramics:

These high-tech ceramics are engineered to release negative ions (anions) and emit Far-Infrared Rays (FIR), which penetrate deep into the body to support cellular health and circulation.

Dual Low-Frequency Stimulation:

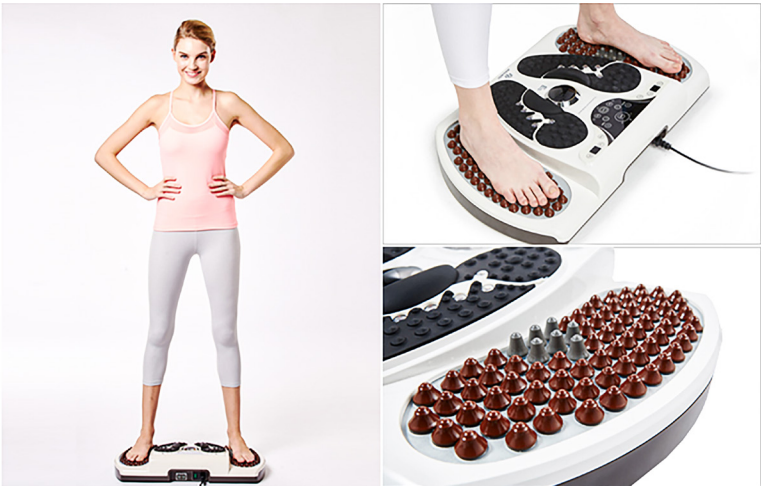

Utilizing conductive rubber materials, the E5 delivers gentle electrical currents to relieve chronic muscle pain and tension.

Low-Frequency Cupping Patches:

Includes specialized patches that can be applied to local areas of choice, such as the shoulders, wrists, knees or calves, for targeted pain management.

Visual LED Graphic Interface:

Features a modern LED display lamp that operates in sync with the output frequency, making your wellness session visually engaging and easy to track.

Primary Areas of Support

Bottom of the feet:

Dedicated thermal contact provides relief for plantar tension and promotes systemic circulation.

Hands & Extremities:

The included Low-Frequency Stick allows for precise stimulation

of the hands and feet to specifically address localized pain.

Joints & Muscles:

The cupping patches offer versatile support for the knees, calves and shoulders, making it a full-body recovery tool.

Product Specifications

Parameter	Details
Product Model	E5
Designation	Combination Stimulator
Key Technology	NDT Ceramics & Low-Frequency Current
Control Method	Dedicated Remote Control
Application Areas	Soles of the Feet, Hands, Knees, Calves and Shoulders
Safety Feature	Automatic 8-Hour Heating Shut-off
Specialized Tools	Cupping Patches & Low-Frequency Stick

E3 WIRELESS STIMULATOR

The E3 is a smart, cordless belt that you wear around your waist. It's perfect for busy people because you don't have to sit near a plug point to use it.

Key Features & Health Benefits

Compact & Wireless Design:

Featuring a rechargeable built-in battery, the E3 provides up to 8 hours of continuous use on a single charge. No cords or outlets are required, offering ultimate convenience.

Hands-Free Operation:

The ergonomic belt-type design allows the device to be worn securely around the waist or other body parts, allowing you to go about your daily activities while receiving therapy.

Low-Frequency Stimulation:

Uses gentle electrical pulses to penetrate deep into muscle tissues, effectively relieving tension, reducing pain and strengthening core muscles.

Versatile Cupping Patches:

Includes specialized cupping-type patches that extend the device's reach. These can be applied to targeted areas to address localized stiffness.

Primary Areas of Support

Abdomen & Lower Back:

The primary belt design focuses on core stimulation and lumbar relief.

Shoulders & Neck:

Use the auxiliary cupping patches to release deep-seated tension in the upper body.

Joints (Knees & Ankles):

Targeted stimulation helps reduce inflammation and improves mobility in the joints.

Limbs (Hands & Calves):

Perfect for relieving muscle fatigue in the arms and legs after a long day.

Product Specifications

Parameter	Details
Product Model	E3
Designation	Wireless Low-Frequency Stimulator
Battery Life	Up to 8 Hours (Rechargeable)
Design Type	Hands-Free Wearable Belt
Application Areas	Abdomen, Lower Back, Shoulders, Knees and Calves
Included Accessories	Cupping-Type Low- Frequency Patches
Specialized Tools	Cupping Patches & Low-Frequency Stick

Our Wellness Solutions

NM 700P ULTRASONIC DEVICE

The NM-700P is a versatile, professional-grade stimulator that combines the power of ultrasound with low-frequency waves. Designed for targeted relief, it is exceptionally portable and easy to use on specific pain points across the entire body.

Key Features & Health Benefits

Compact & Wireless Design:

Featuring a rechargeable built-in battery, the E3 provides up to 8 hours of continuous use on a single charge. No cords or outlets are required, offering ultimate convenience.

Hands-Free Operation:

The ergonomic belt-type design allows the device to be worn securely around the waist or other body parts, allowing you to go about your daily activities while receiving therapy.

Low-Frequency Stimulation:

Uses gentle electrical pulses to penetrate deep into muscle tissues, effectively relieving tension, reducing pain and strengthening core muscles.

Versatile Cupping Patches:

Includes specialized cupping-type patches that extend the device's reach. These can be applied to targeted areas to address localized stiffness.

Primary Areas of Support

Joints & Shoulders:

The ergonomically designed probe focuses deep energy on painful joints for rapid relief.

Face:

A gentle mode for facial care to improve skin texture.

Abdomen & Limbs:

Use the cupping patches on the arms, legs or stomach to target localized muscle pain.

Product Specifications

Parameter	Details
Product Model	NM-700P
Designation	Ultrasonic & Low-Frequency Stimulator
Special Feature	Dual-Action Ultrasound Probe
Application Areas	Joints (Shoulders/Knees), Face (Skincare) and Abdomen
Included Accessories	Low-Frequency Cupping Patches
Portability	Ultra-Compact & Lightweight Design

Our Wellness Solutions

EYE MASK MODEL TE-1

The NDT Eye Mask is a specialized therapeutic accessory designed to provide deep relaxation and rejuvenation for your eyes. This wellness tool is embedded with patented Tourmanium hexagonal stones that emit Far-Infrared (FIR) rays and negative ions, making it an essential solution for those suffering from digital eye strain and sleep irregularities.

Key Features & Health Benefits

Targeted Thermal Therapy:

The hexagonal NDT stones use your body's natural heat to emit Far-Infrared rays. This gentle warmth penetrates deep into the delicate tissues around the eyes to relieve fatigue and stiffness.

Circulation & Dark Circle Relief:

By improving micro-circulation, the mask helps reduce puffiness and the appearance of dark circles caused by lack of sleep or prolonged screen time.

Natural Melatonin Support:

Provides a total blackout environment while the ionic properties of the stones help calm the nervous system, encouraging the body to enter a deeper state of restful sleep.

Holistic Eye Care:

Specifically targets the acupressure points around the eyes and temples to relieve headaches and tension caused by mobile, laptop or TV usage.

Comfort-Fit Design:

Features a soft, skin-friendly fabric backing and an adjustable strap to ensure a secure and comfortable fit throughout the night.

Product Specifications

Parameter	Details
Model	TE-1
Core Technology	Patented Tourmanium Ceramic Hexagons
Therapy Type	Far-Infrared (FIR) & Negative Ion Emission
Strap Type	Fully Adjustable Comfort Strap
Maintenance	Easy-clean, durable fabric construction

SPINE PROJECTOR

MODEL TSP-1

It is a versatile wellness tool designed to restore the natural alignment of your spine while delivering deep-tissue thermal relief. Crafted with a specialized “D-shape” and embedded with therapeutic hexagonal tourmanium stones, this pillow is more than just a support, it is a multi-functional massager that adapts to your body’s unique needs.

Key Features & Health Benefits

Ergonomic “D-Shape” Design:

Specifically engineered to cradle the neck and support the natural cervical curve, helping to correct stiffness caused by mobile or laptop use and reduce spinal pressure.

Hexagonal Stone Technology:

Features a premium arrangement of ceramic stones that provide targeted acupressure and emit Far-Infrared (FIR) heat to soothe deep muscle tension.

Precision Thermal Control:

Includes an easy-to-use wired remote, allowing you to adjust the temperature for a personalized and safe heating experience.

Multi-Position Use

Cervical (Neck) Support:

Perfectly contours to your neck to restore its natural curve and release deep shoulder tension.

Mid-Calf Muscle Recovery:

Provides targeted heat and pressure to the middle of the leg to relax tight muscles after exercise or walking.

Lumbar (Lower Back) Relief:

Fits into the arch of your lower back to soothe chronic backaches and support spinal health.

Ankle & Heel Elevation:

Elevates the feet to improve circulation and reduce swelling and heaviness in the lower limbs.

Product Specifications

Parameter	Details
Design Type	Spine Projector TSP-1
Core Technology	Hexagonal NDT Stones (Thermal & Acupressure)
Application Areas	Neck (Cervical), Lower Back (Lumbar), Mid-Calf and Ankles
Material	Premium Textured Leather-Style Finish
Controller	Wired Remote with Adjustable Settings
Portability	Compact & Lightweight for Full-Body Use

KNEE SUPPORT PAD MODEL TK-2

The Knee Support Pad is an innovative joint-care accessory designed to provide optimal comfort and relief for those experiencing knee discomfort.

Key Features & Health Benefits

Enhanced Joint Stability:

The “X-cut” butterfly design provides a firm grip around the patella (kneecap), keeping the joint properly aligned during walking or exercise.

Non-Electric Thermal Care:

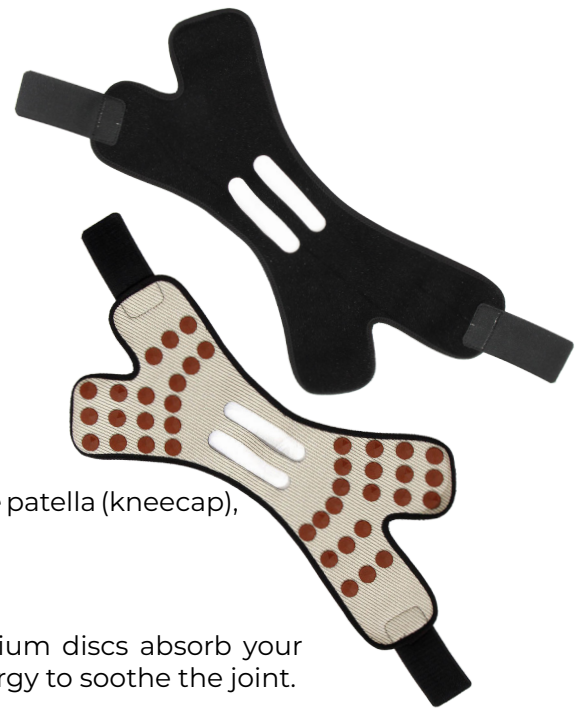

Even without a power source, the embedded Tourmanium discs absorb your body's natural heat and reflect it back as gentle Far-Infrared energy to soothe the joint.

Non-Slip Design:

The high-quality elastic straps and textured inner lining are engineered to stay in place, preventing the pad from sliding down during movement.

Targeted Compression:

Provides the necessary pressure to reduce localized swelling and support weak ligaments, making movement feel more secure.

HOW TO USE IT ?

- 1.Ensure the Tourmanium surface is in contact with the joint.
- 2.Fasten the straps to your desired level of comfort.

Product Specifications

Parameter	Details
Product Model	TK-2
Type	Non-Heating Therapeutic Pad
Application Areas	Knees (Primary), Elbows and Lower Thighs
Core Technology	NDT Ceramic Discs
Function	Joint Stabilization, Compression & Professional Grip
Design Type	Ergonomic “X-Cut” Open-Patella Butterfly Shape

Our Wellness Solutions

HEATING KNEE BELT MODEL TK-1

The Heating Knee Belt is a premium recovery tool designed to provide intensive, targeted heat therapy. Combining advanced Far-Infrared technology with the heritage of stone-based wellness, this belt is an essential solution for those seeking professional-grade relief from joint stiffness and muscle fatigue.

Key Features & Health Benefits

Active Thermal Healing:

Featuring a high-performance active heating system, this belt delivers deep-penetrating Far-Infrared (FIR) warmth to soothe chronic joint pain and significantly improve flexibility.

High-Density Stone Surface:

The inner lining is embedded with Hexagonal NDT Stones that provide continuous acupressure and ionic stimulation, helping to revitalize the joint area during every session.

Ergonomic “S-Wrap” Design:

Specifically engineered with a unique curved shape to hug the natural contours of your knee or elbow for 360-degree therapeutic coverage.

Secure Non-Slip Fastening:

Features wide, reinforced Velcro pads that ensure a firm, stable grip, providing both joint stabilization and consistent heat delivery.

Primary Areas of Support

Targeted Knee Recovery:

The specialized “S-shape” hugs the natural curve of the knee, providing 360-degree heat to the joint and ligaments.

Versatile Limb Support:

The flexible design also allows it to be wrapped around the elbow or thigh to relieve localized muscle tension and stiffness.

Post-Workout Therapy:

A professional tool for athletes to help flush out lactic acid and reduce inflammation after intensive training.

Senior Mobility Care:

Provides gentle, deep-reaching warmth to help manage age-related discomfort and maintain daily independence.

Product Specifications

Parameter	Details
Product Model	TK-1
Type	Active Heating Joint Belt
Application Areas	Knees (Primary), Elbows, Ankles and Calves
Core Technology	Hexagonal NDT Stones

Our Wellness Solutions

HEATING WAIST BELT MODEL TW-1

This therapeutic belt uses Hexagonal NDT Stones to deliver deep-reaching warmth. It is designed to manage daily lower back tension, improve circulation, and support overall core wellness through professional-grade thermal therapy.

Key Features & Health Benefits

Deep-Penetrating Heat:

Far-Infrared (FIR) rays reach deep into muscles to relieve stubborn stiffness that standard heating pads can't touch.

Negative Ion Therapy:

Naturally releases “air vitamins” (negative ions) to help reduce inflammation and promote a sense of calm.

360-degree Ergonomic Fit:

The contoured design ensures the stones stay in perfect contact with your lower back or abdomen.

Abdominal Wellness:
Provides gentle warmth to aid digestive comfort and soothe bloating.

Premium & Durable:
Finished in a luxurious, heat-resistant material that is skin-friendly and built to last.

Product Specifications

Parameter	Details
Product Model	TW-1
Designation	Multi-functional Thermal Therapy Belt
Application Areas	Lower Back (Lumbar) and Abdomen (Stomach)
Power Consumption	90W (Optimized for safe, portable use)
Temperature Range	40°C - 70°C (Precision Adjustable)
Input Voltage	AC 220V - 240V, 50-60Hz
Core Technology	NDT Ceramics (Nano-Diamond technology)
Weight	Approximately 2kg (Lightweight and portable)
Dimensions	Approx. 1370mm x 230mm x 33mm

THERMAL HEATING MATTRESS MOM'S LAP-100

The Thermal Mattress transforms your bed into a professional recovery station. By combining Tourmanium stone therapy with controlled Far-Infrared heat, it provides a systemic wellness experience that heals and revitalizes your body while you rest.

Key Features & Health Benefits

Systemic FIR Therapy:
Emits deep-penetrating Far-Infrared heat that relaxes large muscle groups, reduces full-body stiffness, and improves circulation.

Acupressure & Ion Support:
High-density hexagonal stones provide gentle pressure to vital points while releasing negative ions to promote deep, calm sleep.

Customizable Heat

Levels: From a gentle 30°C for overnight warmth to a powerful 70°C for intensive thermal therapy (moxibustion).

The Smart Control Center

Every Thermal Mattress comes with a dedicated digital controller, giving you complete command over your wellness session:

Precision Heat Dial:

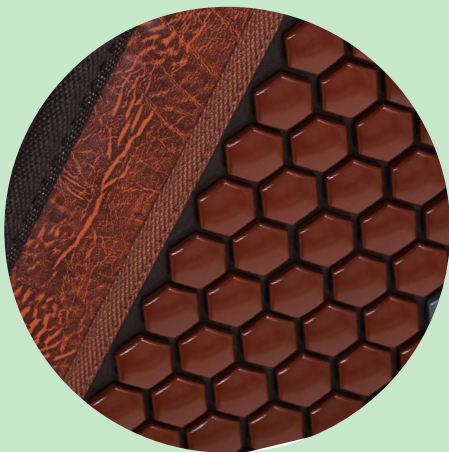

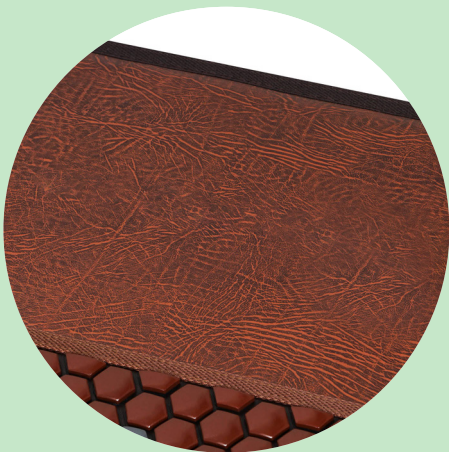

Smoothly adjust the temperature from a gentle 30°C to an intensive 70°C.

Digital LCD Display:

Clear, real-time status of your current and target heat levels.

5-Level Smart Timer:

Set your therapy duration (1H, 4H, 8H) or use the 12-hour sleep mode with automatic safety shut-off.
